

Did You Spot the REAL Outrage of the Presidential Debates?

I wonder how many Americans noticed the most outrageous and alarming aspect of the presidential debates? I bet you the number of people who noticed is sadly insignificant. I would guess that is because the most outrageous aspect of the debates was impossible to see...because it was not there!

Let me ask you something. How many qualified candidates will Americans get to choose from come election day? Guess what...the answer is *not* two ([click here for the answer](#)). But thanks to the absolutely clear, obvious and unquestionable MEDIA CONSPIRACY TO DECEIVE THE WORLD, the press in this nation is not doing their Constitutionally protected job by informing the electorate!!!

Let me tell you something, I talk about a lot of alarming topics when I try to explain media deception to Americans. I talk about 9/11, energy technology suppression, health information suppression and a variety of other topics as they relate to the lies and deceptions of the media. But perhaps no other issue serves as a better and more powerful example of how a huge, nation wide, institutional conspiracy exists in our country, and it is called the mainstream media.

The media in this nation are controlled in their entirety by the people behind the farce known as the two party system. It is like one big Mafia at this point, where the only candidates we are allowed to even think about have to be a member of one of the "families!"

Let me tell you something, I am not advocating violence here but if this were 1808 instead of 2008, and the media uniformly deceived the public as they do now, we, you and I, would be in the street, with axes, shovels, farming tools, and rope and we would hang, quarter or burn at the stake every person involved in the conspiracy. Forget the criminals in government, because if we had a real press the problems in the government would be voted away...because the people would see what really takes place in this nation.

I am talking about the traitors in the media, and those behind them like the founders and most of the members of the Council on Foreign Relations. These people, in a healthy society, would not live to see morning. They are the responsible for every single crime against the people committed by the people in power, because they provide the cloak behind which the offenders are permitted to conduct their crimes against us.

"We are grateful to the Washington Post, the New York Times, Time Magazine and other great publications whose directors have attended our meetings and respected their promises of discretion for almost forty years." - It would have been impossible for us to develop our plan for the world if we had been subjected to the lights of publicity during those years. But, the world is more sophisticated and prepared to march towards a world government. The supranational sovereignty of an intellectual elite and world bankers is surely preferable to the national autodetermination practiced in past centuries." [David Rockefeller](#) , 199.

Here, take a look at the people who would like to serve this nation and may actually represent the interests of the people! ([Click here!](#)) You know, the people the media pre-decided will not be elected as they pre-elected for us industry representatives Barak Obama and John McCain! Think about that!
