

The wiki has three broad goals

Educate people about voter suppression. The term encompasses a wide range of tactics designed to limit voter participation. We want the wiki to offer an explanation of what these tactics are, places to learn more about them and the laws involved.

Collect incidents of voter suppression activity. Based on a standard template, wiki users will be able to add reports of voter suppression to the wiki. Each incident has its own page with a standard form to fill in plus discussion area.

Mobilize action to combat and prevent voter suppression. Knowledge is powerful, but only to the extent that you use it to inform decisions. We don't just want to create a group of pissed off people. We want to create a group of pissed off people who are going to write letters, make phone calls and file lawsuits to protect citizens' votes.

**TVNL Comment: Make sure your vote counts so that you can select a president from the rigged menu presented by the two ruling criminal parties.**
