

There is nothing that George W Bush, McCain or Obama can do to change the tide now...for it has turned into a tsunami against America. The Grand Chessboard game is over, finished, and the US has lost in a rout. Our nation has blown through trillions of dollars (of new debt) with little to nothing accomplished to pursue a bogus, contrived war that was designed to take over in excess of \$15 trillion in Caspian Basin oil and natural gas. The sheer cost of the failed 'war' and scheme to take over the Caspian Basin has ruined the value of the dollar, buried the US in debt and a myriad of ancillary problems, skyrocketed the cost of oil, utilities, food, and shredded the reputation of the United States around the world. By any measure, it is a catastrophe.
